

ISNS 2019 International Symposium for Nano Science

Invited Speakers

Dr. Yousoo Kim

RIKEN

Single molecule chemistry

Dr. Ken-ichi Uchida

NIMS

Spintronics

Dr. Yoshiya Inokuchi

Hiroshima Univ.

Molecular spectroscopy

Dr. Tongcang Li

Purdue Univ.

Quantum optomechanics

Dr. Makoto Fujita

Tokyo Univ.

Coordination self-assembly

Dr. Nobuyuki Matsuda

Tohoku Univ.

Quantum optics

Call for Presenters & Participants

◆ Date **Nov. 27, 28th, 2019**

◆ Place **Σ hall** Toyonaka Campus, Osaka Univ.

◆ Registration & Abstract Submission

ISNS Website→

◆ Application Deadline **Sep. 30th**

◆ Registration Deadline **Nov. 1st**

◆ Banquet **Nov. 27th, 17:30~**

◆ Registration Fee **¥1,000**
(Banquet fee is ¥3,000)

Words from ISNS Student Chair

Since 2014, we, the Cadet Program students had held international symposium annually. This year, we focus on the theme **"Nano Science"**.

During our ISNS committee meeting, the question "What is Nano Science?" came up and it puzzled us. Unable to reach for a definite answer, we thought that this would be an interesting theme. As of such, we decided to hold a symposium based on this. To answer this ambiguous "Nano Science" subject, we invite **researchers from various disciplines** to actively discuss their perspective on "Nano Science".

We look forward to your participation.

ISNS Committee

Student Chair Jinya Nomura
